OBJECTIVES

I am a computer science student in my sixth semester at Namal University Mianwali. I am looking for an internship where I can use my front-end development and programming skills. I am passionate about building user friendly websites and application, and i enjoy solving problems through code. My goal is to gain hands-on experience by working on real-world projects, learn from professional in the industry and grow as developer in collaborative environment.

TECHNICAL SKILLS

LANGUAGES: Python, C++, Java script

WEB DEVELOPMENT: HTML, CSS, React,js, Tailwind CSS

TOOLS & LIBRARIES: Git, GitHub, Data Visualization

CONCEPTS: Responisve Design, DOM Manipulation

EDUCATION

Bachelor of Sceince in Computer Science
Namal University Mianwali
10-2022 to 10-2026

PROJECTS

LeetCode Stats Tracker

Developed a web application using HTML, CSS and javascript that allow user to search and vie LeetCode user statistics. The App fetches real time data from public API and display total problems solved, difficulty wise progress(Easy, Medium, Hard).

Razorpay Landing Page Clone

I have created a responsive clone of Razorpay landing page using Tailwind CSS. Focused on replicating the original design with pixel perfect layout, modern UI components and responsive behavior across different devices. gained hands-on experience in Tailwind utility classes for rapid and clean styling.
